

304(a) Justifications for the 2020 Santa Ana Pueblo Water Quality Standards Revision

Santa Ana Pueblo 2020 Triennial Revision Actions on Clean Water Act (CWA) 304(a) New and Updated Criteria Recommendations Published by the Environmental Protection Agency

Consistent with requirements at 40 CFR 131.20(a), the table below lists the new or updated Clean Water Act section 304(a) criteria published since May 30, 2000, that Santa Ana Pueblo has not adopted and presents an explanation regarding future consideration of the criteria.

Criteria	Explanation
Aluminum	The Pueblo of Santa Ana's program's priorities and lack of resources deferred consideration of this criterion. The Pueblo of Santa Ana will re-evaluate the Aluminum criteria into the next revision.
Copper	The Pueblo of Santa Ana's program's priorities and lack of resources deferred consideration of this criterion. The Pueblo of Santa Ana will re-evaluate the Copper criteria into the next revision.
Selenium	The Pueblo of Santa Ana's program's priorities and lack of resources deferred consideration of this criterion. The Pueblo of Santa Ana will re-evaluate the Selenium criteria into the next revision.
Microcystins and Cylindrospermopsin	The Pueblo of Santa Ana's program's priorities and lack of resources deferred consideration of this criterion. The Pueblo of Santa Ana will re-evaluate the Microcystins and Cylindrospermopsin criteria into the next revision.
